

We're on the court house steps, EVERYWHERE!

We Didn't Invent Document Retrieval. We Just Perfected It!

CourtTrax is very excited about the overwhelmingly positive response to our Nationwide Court Record Document Retrieval Service over the last quarter. In addition to our standard Nationwide Document Retrieval Service we also provide integrated document retrieval in New Jersey, North Carolina, Oregon and Washington allowing you to order documents directly from the case detail reports. Plus, we are adding California courts in the month of June. CourtTrax is quickly becoming our clients' one-stop source for court record information; both in providing access to electronic data and retrieving documents from the court.

So what makes us different from all the other providers? First and foremost, we understand your business and the demands you face on a daily basis. We know you want to do business with a court information services company that is highly experienced, proactive, demonstrates a sense of urgency, pays attention to the details and is highly professional. Most importantly, we know you want to do business with a company that does what they say they are going to do, when they say they are going to do it. We realize that good intentions are not enough. At the end of the day, it comes down to delivering consistent, dependable results. So, that is what we do. Of course, there are also days when you need a miracle. And we have been known to deliver those too!

CourtTrax helps you meet the demands you face by delivering court record information through a unique blend of Web based technology and world-class customer service.

But, don't take our word for it. Check out what our clients have to say about our ease of use, speed of delivery, cost effective pricing and, of course, our customer service:

"We took advantage of CourtTrax's Document Retrieval Solution because we were looking for a cost-effective, simple solution to quickly gather documents that were not available online. CourtTrax has been able to deliver on all three. One of the primary benefits of the CourtTrax solution is it's very easy. I simply click the "retrieve document" button directly from the search interface. When logged in, it auto-populates my contact information and all I need to do is select the state, county and fill out a few other details and click submit. I would recommend the CourtTrax document retrieval solution to anyone."

Client Testimonials Cont...

"I've recently moved all of my document retrieval requests over to CourtTrax because I am so completely happy with your service, on every level. The web interface is incredibly easy to navigate, the turnaround time is very fast, and the cost is significantly less than the service I had been using previously. And, most importantly, the CourtTrax customer service is phenomenal – great response time, excellent delivery of information."

On The Horizon: California One-Source Service!

We are very excited to announce that during the month of June we will be introducing our new service in California that will provide the ability to conduct name searches, case number searches and order documents from any California state court from our simple, easy to use User Interface. Accessing California court record information has never been easier. You will simply go to www.courttrax.com and place your order. In those courts where court record information is available online your results will be returned within minutes. Where online access is not available we will fulfill your request by deploying one of our statewide Court Runner Specialists to do the work for you. Your results will normally be returned the same day. With our service in California you no longer have to learn how to access and navigate California's 58 individual county courts. Simply log on to www.courttrax.com and place your order and we will do all the work for you. Our service is easy to use, fast and very cost effective.
