## Access to California Courts Now Available!

### CALIFORNIA GOES LIVE!

We are pleased to provide our users with access to California Superior Courts! CourtTrax's online interface now includes an option for "California Courts" alongside the other states within our service coverage.

#### Coverage

Effective with this announcement, the Superior Courts of sixteen California Counties as well as the California State Appellate and Supreme Courts can now be accessed through CourtTrax. These new jurisdictions extend CourtTrax's value as an aggregator of court information access, while providing the same level of best-in-class results, and time and money savings that customers have come to expect from CourtTrax.

#### Advantages

This release marks the largest integration of numerous disparate Host systems for a single State into one place, bringing our customers a one-stop destination for California Court data. Rather than having to access sixteen separate local systems, and learn the unique navigation and data requirements of each to conduct a search, CourtTrax does the heavy-lifting for you, synergizing all the various access procedures into a single search, and a single click of the mouse.

At the same time, you retain all the classic advantages of CourtTrax: our browser-based, no-software-required interface; and the ability to attach a Search Title or Client/Matter number to each search for ease of cost allocation.

#### Pricing

As with all CourtTrax products, there is no subscription or set-up fees; the user is only charged on a per-search basis. Pricing information for the State of California is available on our website, or by contacting our sales team at:

866-643-7084 or [sales@courtrax.com](mailto:sales@courtrax.com)

The screenshot shows the CourtTrax website interface. At the top, there is a navigation bar with links for Home, Contact Us, Pricing, Help, Courts, and My Account. A user is logged in as Ross S. The main content area is titled "California" and features a "Select Court(s)" dropdown menu with a list of counties including Butte, Contra Costa, Glenn, Kern, Los Angeles, Monterey, Orange, Riverside, Sacramento, San Bernardino, San Diego, San Francisco, San Mateo, Santa Cruz, Shastaville, and Ventura. To the right of the dropdown is a map of California with counties labeled with abbreviations. Below the map are three search tabs: "Individual Name Search", "Business Name Search", and "Case / Judgment # Search". The "Individual Name Search" tab is active, showing a search form with fields for Last Name, First Name, and MI. There are checkboxes for Case type (Civil, Probate, Domestic, Criminal, Mental Health, All) and a "Search" button. A "Run search in the background mode" checkbox is also present.

### FOCUS YOUR SEARCH RESULTS WITH SORTING!

We are excited to announce a new feature that we are progressively rolling out to each State within our coverage: Search Result Sorting. Now, after you have performed a Name Search using CourtTrax, you can sort your results by any criteria relevant to you; whether it be by Name, Birth Date, Date Of Filing, or any other point of data made available by the court. With sorting, you can forgo having to scan through a long list of search results for those key cases you desire, and instead bring your search into focus.

Result sorting is currently available using the following jurisdictions: New Jersey, North Carolina, Washington, Oregon, and the Federal District and Bankruptcy Courts nationwide.

### PDF CONVERSION BETTER THAN EVER!

You spoke, and we listened. Our PDF Conversion Tool has received a major enhancement, improving the quality and legibility of the PDFs you can produce using CourtTrax. By better merging the conversion process with the information available through your browser, we have made creating documents by clicking the PDF button match what you see on your computer screen with far more accuracy and clarity than before. Give it a try today!
