

CourtTrax Announces Online Name Searching for Los Angeles County Superior Court Civil Cases!

CourtTrax is pleased to announce online name searching for Los Angeles County Superior Court civil cases!

The Los Angeles County Superior Court System serves the most populated county in the United States with well over 10,000,000 residents. It is the single largest unified trial court system in the country, with 50 court houses and 2.7 million new cases filed each year, resulting in 5,500 jury trials per year heard in 600 court rooms.

In focus group meetings with firms of all sizes, users have told us that they find the current civil case name searching solution offered by the court system to be complicated, time consuming and confusing. Their #1 request was "please give us an alternative"! So that's what we have done. Effective today, CourtTrax is introducing a solution that is fast, easy to learn and simple to use for Los Angeles County Superior Court civil case name searching! As our users have come to expect, we are providing the entire name searching functionality currently available in Los Angeles County Superior Court, plus so much more:

- **You do not need a credit card for each transaction.** We will bill you at the end of each month for all your search activity!
- **Zero in on specific names before your case list is presented.** Our Name Variation List allows you to choose just those parties you need or all the variations you want (e.g., choose John Smith, John J and John Julius, but not John Jacob Smith)
- **Clearly see which court branch a case resides in.** We have added the court location to the case details (whenever it is available) so you don't have to print multiple screens.
- **You can sort all search results** by Party name, Case Type, Date filed, Location.
- **We remember where your 10th case retrieval ended and the 11th starts,** so when you conduct a name search and need to retrieve more than 10 cases there is no more guesswork when you rerun the search.

- **All search results are presented in a standardized, easy to understand report format.** So there should be no more confusion about search results.
- **All search results are saved for 60 days in CourtTrax.** And you can access and re-open them for no charge or save them to your own hard drive indefinitely.
- **You can assign a "Client Matter Code" to each search.** So all search activity can easily be billed back to the appropriate client.
- **You can annotate, email, save to PDF and share all search results.** So you can maximize your productivity using the court information we provide.
