Q2 2009 Update ~ We're building momentum!

CTX 2.0

The feedback for the latest version of our service – CTX 2.0 – has been very positive. Thank you! New features such as sharing searches, setting case watches and name alerts, easily e-mailing or texting PDFs of your search results, and using our Collaboration Space have greatly enhanced the productivity our solution provides.

One feature that seems to be slipping under the radar though is our sticky note tool. The note functionality allows a user to annotate search results with a note that will be saved along with the rest of the search results (see below).

This same note will also appear in the sticky note stack in the Collaboration Tools section of our application (along with any other 'reminder' sticky notes the user has generated), with a hotlink to the associated case number embedded in it. The user can then easily browse through all the notes, and edit or delete them as they choose. When a note linked to a case is deleted from the stack, it is also deleted from the saved search associated with it.

Using these sticky notes can be a great way to remind yourself of comments and questions you thought of while reviewing search results, and then sharing these thoughts with your peers.

North Carolina Now Online!

CourtTrax is now live statewide in **North Carolina!** CourtTrax now provides access to this complex state's hard-to-get-at court information with all the functionality, dependability, performance and value that you've come to expect. What's not to like?

On the Horizon

CourtTrax throws a Party!

A Party Name Index, that is. We are pleased to announce that we have added Party Name Index searching to our Federal research product (see the above graphic). Users can now search the Federal Index for a party name (individual or business) in their selected jurisdictions or nationwide.

When searching the Party Name Index in Bankruptcy users have a few new search criteria as options too (Check out the new Tabs):

Tab	New Search Option
Individual	Last 4 of SSN
Business	Last 4 of Tax ID #
SSN & Tax ID #	Full SSN or Tax ID #

Not only is searching the Federal Index by party name quick and easy, it is also very economical. If your search generates fewer than 500 results, the cost of the search is only \$1.00. For searches between 501 and 2500 results, the cost is \$3.00. While searches with over 2500 results cost \$5.00. (Search Tip: manage your search criteria carefully to keep the search results – and costs – under control.)

As always, the standard CourtTrax search functionality makes it simple to conduct your search, and our Case Detail Report provides a crisp, clear and consistent view of all the information available for your case.

Court Runner Service Expands Nationwide

CourtTrax can now fulfill your document retrieval needs in all 50 states. With our web-based order form, you can place your order and receive a price quote in a matter of seconds. All documents are delivered as PDFs via email unless otherwise requested. We strive to for a turnaround time of 48 hours or less!

For the month of May, **all first time users** of the CourtTrax Runner Service will **receive a 20% discount** off their order. This includes both the trip fee and any associated copy fees. Considering our already very competitive retail pricing, this price is tough to beat. Give us a try!

"We took advantage of CourtTrax' Document Retrieval Solution because we were looking for a cost-effective, simple solution to quickly gather documents that were not available online. CourtTrax has been able to deliver on all three. I simply click the "retrieve document" button directly from the search interface.

I would recommend the CourtTrax document retrieval solution to anyone."

- Mike Pruitt
Fidelity - LPS Default

New Jurisdictions: California will be online soon with 16 counties, including the major metropolitan areas. Following closely behind will be Texas and Florida!

New Functionality:

- o Name search results sorting
- o 'My Account' activity reporting
- o 'A la carte' case detail report results
- o "Sticky" Client/Matter Number field

**Nature of Suit –
Turn the NOS to YES!**

CourtTrax will soon offer the ability to limit Federal District Court searches by Nature of Suit parameters. Simply entering one or more NOS code numbers will filter your search for those coded categories.
