

CourtTrax Opens Access to WA Supreme and Appellate Courts

WA Appellate Courts Now Available!

CourtTrax has expanded its services to include access to the Washington State Appellate Courts. This new service provides a quick and easy method to search within and save information from the Washington Appellate Courts.

This new search service provides the ability to search for a person, business, or case number in the Washington State Appellate and Supreme Courts very much like CourtTrax services currently available for the Washington State Superior, District and Municipal Courts; Oregon Tax and Municipal Courts; and Federal District and Bankruptcy Courts.

CourtTrax Adds Value to Appellate Court Searches

* The CourtTrax Washington State Appellate /Supreme search results page exceeds ACORD by retrieving the County of filing, the Court of jurisdiction, and the full text of the case review type, all on a single page without the need for further navigation.

* Each CourtTrax Appellate/Supreme search covers all three State Appellate Divisions and the State Supreme Court with a single click.

* Cost allocation is a snap with monthly billing and client detail clearly assigned to each search.

* As with all CourtTrax search services, searched information is saved for 60 days for easy review at no extra cost.

Clues:

Prices on Federal District searches have been slashed!

In CourtTrax's continuing efforts to increase its value to its customers, the price per search of Federal District Courts has been reduced!

With this change, CourtTrax increases the value of the complete information package for Federal District searches by offering name, business, and case number searches with the ability to download case document images.

With CourtTrax you can:

- * Search multiple jurisdictions concurrently
- * Save your search results for months
- * Retrieve all relevant case information in one case detail report
- * Save money with a flat fee regardless of the size of the case

Reviews:

Electronic access to Federal District and Bankruptcy Court documents is now available!

Just as with our introduction of King County Superior Court documents earlier this year, you can now save time and money downloading both Federal Bankruptcy and Federal District Court documents directly through CourtTrax!

CourtTrax is diligently working to further expand our document retrieval services within Washington State. Let us know where you would like us to go next!
